

Niobrara MM12 Cable

The Niobrara MM12 Cable is an RS-232 serial data cable intended to be used to connect a DCE device such as a modem to a Niobrara QUCM. One end of the cable is fitted with an RJ45 plug for connection to a serial port of the QUCM; the other end terminates in a male DB25 connector for connection to the serial port of the modem. The MM12 is a modified version of the MM4 modem cable with the RJ45 RTS and CTS connected to the modem's DTR and DCD.

Configuration

The pinout for the MM12 is as follows:

Installation:

Connect the RJ45 end of the MM12 cable to a serial port of the QUCM or other appropriate device. Connect the 25-pin DB25 end of the adapter to the serial port of the modem. Refer to the instructions for the connected devices.
